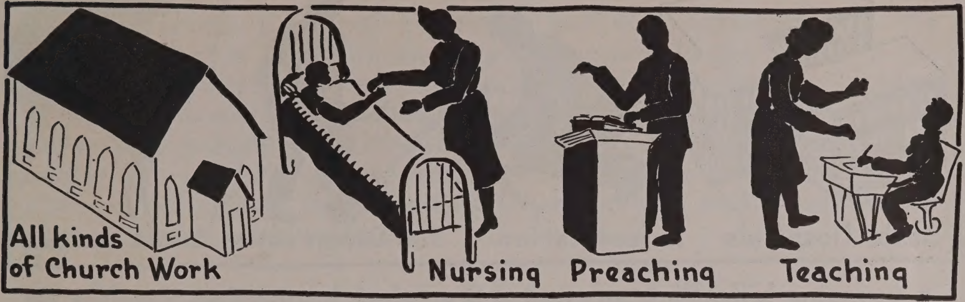
The Colleges Train Many Workers for the Home Front



Not all the useful servants of the church have attended college, but many of them did so. A survey made in 1942 of church workers having attended either Goshen and / or Hesston colleges showed

187 ordained bishops, ministers, and deacons
54 appointed workers in home and city missions
117 other appointed workers.

The foregoing includes only workers appointed or regularly stationed in church institutions. In addition to these there are large numbers who serve as nurses, schoolteachers, Sunday-school superintendents and teachers, helpers in young people's Bible meetings, summer Bible schools, and in literary societies.

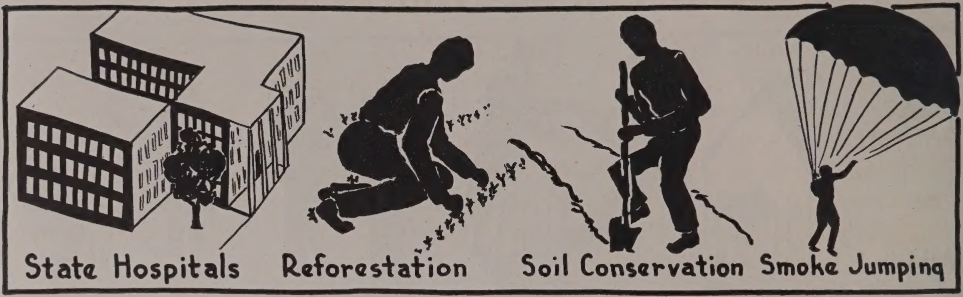
John S. Coffman, pioneer Mennonite evangelist and educator, at the dedication in 1896 of a new building at Elkhart Institute (now Goshen College) gave an address on "The Spirit of Progress." Coffman's vision of many Christian workers going into various fields of the church's work has at least had a partial fulfillment. Following is a quotation from this epoch-making address:

"We are thrilled with a vision of a multitude of young men and women going out from this institution, trained to make the best use of all their faculties, possessed of a will to do right, armed with a character that will never shrink from maintaining true principles, and a trust that relies solely on the favor of God for success."

"The Lord God hath given me the tongue of the learned, that I might know how to speak a word in season to him that is weary" (The Bible).

The Colleges and Wartime Activities

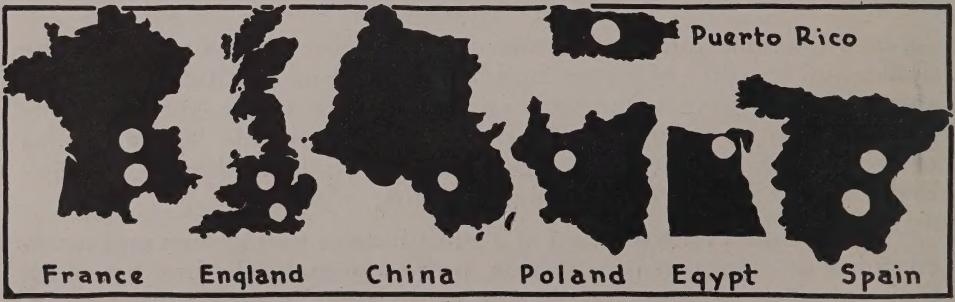
(1) Civilian Public Service Aided by the Colleges:



State Hospitals
Reforestation
Soil Conservation
Smoke Jumping

In terracing hillsides to prevent soil erosion, in planting trees for reforestation, in building roads and bridges, in fighting floods and smoke jumping, and in ministering to the mentally sick in state hospitals, the college men worked side by side with non-college men. Several teachers were loaned by the colleges for camp service. John Duerksen from the Hesston faculty is at present camp director at Three Rivers, California. G. F. Hershberger from Goshen gave a year of service at Bluffton and Medaryville camps in Indiana. Paul Bender, from Goshen, served one and a half years, first at Medaryville, Indiana; then at Denison, Iowa; last at Grottoes, Virginia.

(2) War Sufferers Relief Draws Personnel from Colleges:



Puerto Rico
France
England
China
Poland
Egypt
Spain

Among those from our college faculties who have given, or are now giving service in war sufferers relief, we find M. C. Lehman, Levi Hartzler, J. N. Byler, Lois Gunden, Roman Gingerich, Glen R. Miller, and Mr. and Mrs. Willard Smith.

The Financial Program for 1944-1945

(1) Co-operation with the Conferences:

The Mennonite Board of Education has the confidence that the church will give adequate and regular support to the schools if the schools give adequate and regular service to the church. In view of this, the board has directed the presidents of Goshen and Hesston colleges to present the 1944-45 financial program to each district conference in the board's constituency at the annual spring and summer sessions in the hope that these contacts will promote continued good understanding.

(2) Observance of Christian Education Day:

It is hoped that every church in the board's constituency will observe Christian Education Day for the following reasons:

(A) To Consider the need and the importance of Christian Education.

(B) To provide an opportunity through which necessary finances can be raised.

(3) Operating Funds to be Raised by Offerings:

In keeping with sentiment expressed the board hopes that many churches will take this opportunity to help raise the funds required to balance the operating budgets of Goshen and Hesston colleges during 1944-45, by taking offerings during August and September. The board sincerely hopes that each church will do its part, so that no single congregation will need to give more than its proportionate share.

(4) Solicitation for Special Projects:

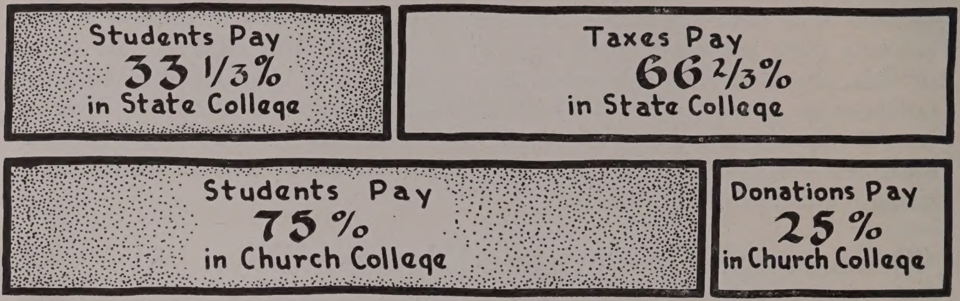
Hesston needs another dormitory, and Goshen an auditorium-gymnasium. The board has therefore planned to solicit individuals personally wherever advisable to receive donations for these building funds. The president of each college will be responsible to the executive committee for receipting and accounting of building funds.

(5) Co-operation with the Alumni Associations:

The board desires to co-operate with the alumni associations of both colleges in keeping an accurate record of all alumni gifts.

Balanced Budgets and Building Funds

(1) Who pays the tuition when one goes to college?



(2) What is needed to pay 25% of the tuition?

To balance the budgets of Goshen and Hesston colleges for the fiscal year 1944 to 1945 will require approximately **$23,000**

(3) The board's plan for future buildings:

To start a fund for the building of a new Dorm. at Hesston college the board is asking from September 1, 1944 to August 31, 1945 for **$21,000**

To start a fund for the building of an auditorium-gymnasium at Goshen college the board is asking from September 1, 1944 to August 31, 1945 for **$21,000**

(4) Summary of financial program for 1944-1945:

Increased Income and Assets Should Encourage Giving

1942	5,300,000,000
1943	23,900,000,000

(3) United States Savings Bonds Purchased by Individuals have Increased Rapidly Since 1940:

1943	55,000,000,000

(4) National Income in the United States has Risen Since 1940:

1940	$78,481,000,000
1941	93,166,000,000
1942	118,609,000,000
1943	*145,600,000,000

Members of the board of education realize that taxes, income taxes, increased prices for commodities, and calls for funds for various purposes will absorb a good share of the present abnormal prosperity, but many people still are improving their financial position due to wartime prosperity. Because of this it seems only reasonable that efforts should be made to meet some of the pressing needs of our colleges in such a time as this. Responses in cash and counsel from the church point in this direction.

* Preliminary report.

Thoughts on Money and Stewardship

Money is not only a standard of value and an instrument of power.

Money is accumulated power. Money is not only potent, but in some respects it is well nigh omnipotent.

Money has power to enable a man to multiply the length of his life service. With it he can set others to work while he himself continues to labor, thus paralleling his own life work. With money he can insure the continuation of his activity through other long years and even generations after his own earthly career has closed.

Money enables one to extend the field of his life service. A man, not a millionaire, died sometime ago whose gifts were working during his lifetime in over two hundred different places throughout the world — in churches, colleges, hospitals, and societies for the help of needy men.

Money is the lever of all good enterprises. By itself, no amount of money can save a soul, or build a character, or evangelize a city, or make a college effective, and yet it is a factor without which none of these results is accomplished.

The United States Government frees from tax fifteen per cent of one's taxable income. The Canadian Government also allows tax exemption on donations given to charity and benevolence. This government practice of exempting donations from income tax points directly at the principle of tithing taught in the Bible.

Stewardship is that law by which one gives a part of his living self to others and yet is himself the richer for it. The highest use of property and profit is to honor the Lord with it. Anyone who has given himself to God wants to honor God with his substance. Therefore, as he purposes in his heart so let him give.

THE ALUMNI NEWS-LETTER

ALUMNI DONATIONS FOR THE HEATING PLANT

Alumni response to President Miller's appeal for funds to build a new heating plant for Goshen College has been gratifying. An unusually large number of the donations have been $25.00 or over. The largest single donation is about $2,000.00. Several Alumni (four) have given $500.00. Included in the total are ten gifts for $100.00, twelve for $50.00, thirty-one for $25.00 to $50.00, one for $200.00, and one for $250.00.

The Executive Committee of the Alumni Association feel, however, that a somewhat larger number of Alumni who might be able to contribute $5.00 or $10.00 to the heating plant fund should be listed among the contributors. A large number of Alumni are tithers. Is it not reasonable to expect that at least a small amount of the tithe should come as a donation to Goshen College? It is true that the appeal for relief and mission funds is very urgent at the present time, but is there not danger that if those who are in the best position to appreciate the work of Goshen College fail to respond to her appeals for financial aid that the training of workers for the future Church may be handicapped?

The names listed below are of those who have contributed through the Alumni office or whose donations have come directly to the attention of the president of the Alumni Association. It has not been possible to tabulate before January 1 the donations sent directly to the office of the Board of Education at Akron, Pennsylvania, or those which have been sent to the Akron office by I. E. Burkhart, Field Secretary. The editor hopes to be able to print a complete list of contributors in a succeeding issue of the NEWS LETTER.

EDITORIAL CHAT

The President of the Alumni Association is very grateful to the many Alumni who helped to make his recent trip through the East a success. Several Alumni spent considerable time, energy, and money in assembling and entertaining the Alumni in their vicinity for a meeting. To all of these the Administration of Goshen College and the President of the Alumni Association are grateful.

The financial program of the College deserves the wholehearted support of all Alumni. No one is in quite the same position, as Alumni and former students are, to realize the importance of the work that Goshen College is doing for the Mennonite Church and for the cause of Christ in general. Demand for funds is insistent in many quarters, and many causes deserve the support of Christian people, but in the present crisis of decreased college enrollments and other elements of uncertainty the small Christian college simply can not carry on unless it receives the support of its Alumni. Any college must depend in a large measure for its support on the loyalty and friendliness of its Alumni Association.

EDITOR OF GOSPEL HERALD RETIRES

Bishop Daniel Kauffman, president of Goshen College during the year 1922-23, has retired as editor for the Gospel Herald after serving in that capacity for nearly thirty-nine years. The December 30 issue of the **Gospel Herald** is his final contribution as editor. The office force devoted more than two pages of the issue to a tribute to Bishop Kauffman and a review of his work in the Publishing House. Bishop Kauffman and his wife, the former Mary (Mollie) Shank x02, are living in Iowa.

Bishop Kauffman's successor as editor of the Herald is Professor Paul Erb, who assumes his new duties with the first issue in January. Professor Erb will continue his connection with Goshen College on a part-time basis until a suitable successor is appointed. In the meantime Professor and Mrs. Erb (Alta Mae Eby 11) and their two children, Winifred and Delbert, will continue to live in their new home at 1618 South Eighth Street, Goshen.

LATER After the above item was in the hands of the printer, the College received word that Brother Kauffman had passed away on January 6. Funeral services were held at Scottdale, Pennsylvania. He is survived by his wife, Mary Shank x02, two daughters, and a son Homer M. 23, of Scottdale. His grandson, Daniel Kauffman, now in C.P.S., was a member of the Class of 1944, and his granddaughter Melva is a senior. Brother Kauffman did not live to see his successor's first issue of The Gospel Herald, which carried the name of Daniel Kauffman as editor emeritus.

He probably was the most widely known man in the Mennonite Church. For many years no voice carried greater weight than his in the counsels of the Church, and he exerted a powerful and, at the same time, beneficent influence in her educational, evangelistic, publication and administrative circles.

TRAINING FOR RELIEF

The Mennonite Central Committee is planning relief training for 150 to 200 Mennonite C.P.S. men. Approximately ninety men are already in relief training at Ypsilanti State Hospital, Florida Health and Sanitary Unit, Alexian Brothers Hospital, Duke University Hospital, and the State Hospital for Mental Diseases at Howard, Rhode Island. The Mennonite Central Committee has appointed C. L. Graber, business manager absent on leave from Goshen College, as Relief Candidate Secretary. President E. E. Miller 17 is General Director of Relief Workers Training.

NORTH GOSHEN BISHOP

On Sunday, October 17, Paul Mininger 34, pastor of the North Goshen Mennonite Church, was ordained bishop. Bishop D. D. Miller, who has had charge of the congregation, gave him the ordination charge and delivered the bishop oversight of the North Goshen Church to him. Bishop Sanford C. Yoder preached the ordination sermon.

Paul Mininger and Family

Bishop Mininger took charge of the Sunday school in North Goshen in September 1937 and inaugurated preaching services and evening services. On February 13, 1938, he was ordained to the Christian ministry, and under his pastorate the congregation made phenomenal growth. Professor John C. Wenger, who on May 2, 1943 was ordained deacon of the congregation, has been assisting him. He also has oversight of the East Goshen Sunday School, of which Roy Roth 43 is superintendent, and of the Locust Grove Sunday School, south of Elkhart, of which Millard Lind 42 is superintendent. On Sunday evening, December 12, he baptized ten converts at Locust Grove, who have become the nucleus of a new congregation.

He and his wife, the former Mary Ellen Erb of Wellman, Iowa, and their three children, Grace Eleanor, eight; John David, five; and James Edward, six months, live at 1624 South Eighth Street, the residence of the late Erie Yoder, which they purchased about a year ago. Mrs. Mininger is a registered nurse. She completed the work for her degree at the Mennonite Hospital School of Nursing at La Junta, Colorado, in 1930.

Bishop Mininger is associate professor of Bible and also religious counselor for Goshen College students. He completed the residence requirements for the Ph.D. degree at the University of Pennsylvania, in 1937.

ESTEEMED FRIEND OF THE COLLEGE

One of the warm friends of Goshen College is the aged, but still strong and mentally active, Mrs. A. N. Wolf, of Akron, Pennsylvania. She is the mother of Mrs. O. O. Miller (Elta Wolf 12) and the grandmother of Mrs. Ronald Beach (Lois Miller 37) of Washington, D.C., of Albert Miller 43, and Daniel 44. She is shown in the accompanying illustration with her great-grandson, Ronnie Beach.

ALUMNI FLOCK HOME

The 1943 Home-coming was one of the largest and most successful in recent years. Over 340 homecomers, faculty members, students, and friends enjoyed Art C. Gingerich's famous corn-fed Iowa turkeys. It was estimated that during the week end between 200 and 250 Alumni and friends visited the campus.

The exercises began with the traditional Thanksgiving service and a fitting sermon by President Miller, followed by the home-coming banquet. The program was in charge of Professor W. H. Smith, Mary Oyer 45, and Meryl Grasse 44. Prof. Walter E. Yoder's A Cappella Chorus rendered an excellent program in the evening.

On Friday evening, Frederic and Sylvia Christian presented the home-coming lecture, "South American Travels," illustrated with excellent natural color pictures. The auditorium was not large enough to accommodate all those who wished to purchase tickets. The 1943 Home-coming demonstrated once more that the College is in great need of a new auditorium-gymnasium. When the war is over and travel restrictions are removed, the College will be able to accommodate only a fraction of the large number of people who will wish to attend the special functions at the College in connection with Christian Life Conference, Commencement, and Home-coming.

Outstanding features of the Saturday evening Musicale were two bass solos by Wilbur Huneryager; "Selection for String Trio," by Margaret Detwiller 43, of Scott, Indiana, Mary Oyer 45, of Goshen, and Rosemary Roose 43, of North Liberty; and "Let All My Life Be Music," by the Ladies' Chorus.

Someone with a genius for names and faces wrote down the following list of homecomers who were present at one program. This is probably only a partial list.

Alvan Thuma 43, Covington, Ohio; Alverda Schertz, Washington, Illinois; John Oyer 45, C.P.S. Camp, Grottoes, Virginia; Earl Troyer 45, West Liberty, Ohio; Verda Lambright 43, Grasscreek; Howard Kauffman x43, Ypsilanti Hospital; Ernest Lehman 42, State Hospital, Harrisburg, Pennsylvania; Mary Shank 43, Argos; Rachel Smith x45, Eureka, Illinois; Florence Goodman x45, Elkhart; Claire Goodman 43, Kokomo; Mr. and Mrs. Wilbur Huneryager (Elva Gunden 34), Goshen; Mr. and Mrs. C. P. Martin 27 (Erma Schertz 32), Elkhart; Rosemary Roose 43, North Liberty; Lois Yoder 41, West Liberty, Ohio; Nolan Hartzler x41, Topeka; Orval Schrock x44, Topeka; Lois Swihart 43, Eureka, Illinois; Mr. and Mrs. Harold Oyer 42 (Esther Hartzler 42), Goshen; Adelia Blosser 43, Fairfield, Ohio; Mr. and Mrs. H. Ralph Hernley 41 (Elizabeth Sieber 40), C.P.S. THE ALUMNI TOUR

President Miller and the Executive Committee of the Alumni Association again planned a trip through the eastern states by a representative of the Alumni Association. The President of the Association left Goshen on November 2 and returned to the campus on November 19. He met with Alumni groups at Cleveland, Akron, and Painesville, Ohio; Orrtanna-Biglerville, Shiremanstown, Harrisburg, Akron, Philadelphia, and Pittsburgh, Pennsylvania; Baltimore, Leitersburg, Clear Spring, Hagerstown, and Frederick, Maryland; Princeton, New Jersey; New York City; and also stopped for a few hours in Washington, D.C.

Although it was necessary to cancel a few appointments on this trip, the tour was successful in every respect. The largest groups were those at Cleveland, Akron, Orrtanna, Pittsburgh, and Philadelphia.

The Executive Committee as well as the President of the Association extend to each of the following Alumni special thanks for assisting in the arrangements for Alumni meetings, for entertainment, or for other special courtesies:

FACTORS AFFECTING ENROLLMENT

Although student attendance at the College has remained unexpectedly stable, each passing semester sees a slight decrease in enrollment. Several factors contribute to the decline.

The accelerated program enabled several students to complete their work for a degree in December, a semester or more ahead of schedule. Elizabeth Barringer, of Elkhart; Jeanne McPherson, of Goshen; Earl Lehman, of Lancaster, Pennsylvania; Ezra Nafziger, of Palmyra, Pennsylvania; Lawrence Rule, of Goshen; Marcus Bishop, of Kim, Colorado; Stanley Shenk, of Biglerville, Pennsylvania; and Meryl Grasse, of Chalfont, Pennsylvania, received the Bachelor of Arts degree. Richard Smoker, sophomore, of Goshen, was granted the degree, Associate in Arts.

Marcus Bishop, Earl Lehman, and Stanley Shenk will remain on the campus until spring, Bishop and Lehman to receive the Th.B. degree, and Shenk, who already has that degree, to receive graduate credit which he expects to transfer to Eastern Baptist Seminary next fall.

Miss Barringer and Miss McPherson hope to secure high school teaching positions at the opening of the second semester.

Mr. and Mrs. Nafziger have moved to Philadelphia where Mr. Nafziger is enrolled in the Hahneman School of Medicine. Mrs. Nafziger is in the training school for nurses at the same institution.

Meryl Grasse, also in Hahneman since January 3, is rooming with Alvan Thuma 43, who was accepted last year and who has been teaching science in a high school near his home at Covington, Ohio, during the first semester.

Walter Schlabach, member of the senior class, also registered in Hahneman on January 3, and expects to transfer credit back to Goshen next spring in order to receive the B.A. with his class. Mrs. Schlabach and their small son accompanied him to Philadelphia. She was registered as a part-time student during the first semester.

Two other seniors, Paul Brenneman, of Tofield, Alberta, and Kay Nelson, of Shipshewana, left the campus in December, the latter to enter Temple University School of Medicine on January 3. Nelson, also, will receive the B.A. at Goshen next spring. Brenneman's plans are indefinite. He has been accepted by Jefferson Medical in Philadelphia but prefers to do his medical work at Kansas University.

The second semester enrollment is decreased still further by withdrawals on account of Selective Service and on account of some students securing teaching positions prior to graduation.

Cecil Wade, freshman, of Sterling, Illinois, expects to be called to a C.P.S. camp within a few weeks. Ralph Lehman, senior, of Castorland, New York, reported at Denison, Iowa, C.P.S. camp on December 10. The deferment of Richard Huebner, freshman, of Orrville, Ohio, has been revoked.

Doran Hershberger, junior, of Walnut Creek, Ohio, who had been accepted at Case School of Applied Science in Cleveland, has had his deferment revoked and has been given a IV-E classification. Dale Hershberger, freshman, of Millersburg, Ohio, will remain at home to work on his father's farm.

Naomi Yoder, freshman, of Belleville, Pennsylvania, who has already had a year of nurses' training, withdrew at the end of the first semester to complete her training at a Maryland hospital. Wilma Yoder, sophomore, of Bellefontaine, Ohio, has accepted a teaching position in the Urbana township schools, near Urbana, Ohio.

Oma Hershberger, sophomore, of Walnut Creek, Ohio, and Esther Miller, sophomore, of Sugar Creek, Ohio, are planning to accept teaching positions.

A few students have entered at the beginning of the second semester, but not enough to halt a further drop in enrollment. Several of these are high school seniors who are entering college now to complete as much college work as possible before they reach draft age and who expect to transfer enough credit back to high school to secure a high school diploma by spring.

His work is chiefly quantitative chemistry. He writes, "We have a thriving young church here in Pueblo now. We have a building, janitor, Sunday school, Y.P.M., and even preaching, but no Mennonite preacher. Since 41 class had a number of preachers I was just thinking that perhaps one could be spared for our little church." Mrs. Wade Jones (Marion) is teaching Red Cross home nursing. She writes, "This spring the nurses' commencement at La Junta seemed almost like a small corner of Goshen. M. C. Lehman spoke several times, and Dr. Yoder was there. Almost everyone there had been to Goshen."

He claims that the putty he used last summer would have made a strip 480 feet long.

Mr. and Mrs. Ernest Smucker (Mary Liechty, R.N., 43) are still living in Chicago, taking care of one-year-old Jon and finishing the course at medical school. Alfred Zook, member of C.P.S. Unit 44 of Staunton, Virginia, writes: "During the past week the State Supervisor of Nurses has started a course in Psychiatric Nursing which should prove very beneficial both to the individual and the patients in his charge. This class is to meet three times weekly for twenty-five weeks and include anatomy, physiology, hygiene, nursing procedures, and different types of therapy. FACULTY OF GOSHEN COLLEGE

No group picture of the faculty of Goshen College has been printed in the Alumni Bulletin since 1937. The above group is complete as of May, 1943, except for the absence of Paul Bender, registrar and professor of physics, who was serving as director of the C.P.S. camp at Grottoes, Virginia, at that time, and Miss Lois Gunden, instructor in French, who had been on leave of absence for relief work among Spanish refugees in France, but was interned in Germany when the Germans occupied Southern France. Her letters state that she is spending her time in study and recreation. Paul Bender has the Ph. D. degree from Iowa State University (1931) and Miss Gunden the M. VOLUME XXXVIII APRIL 1944 NUMBER 4

This Is Our World Mission

Ours is a shrinking world but an expanding task. Anyone traveling by train soon learns that today a large section of our population is on the move. Soldiers and civilians seem to be constantly shifting. Persons who formerly had seen little of the world aside from their own neighborhoods, now talk glibly about Texas, Oregon, Florida, North Africa, and the islands of the South Pacific. And, those who do remain at home are studying maps to follow their loved ones around the world.

We have very largely reduced the factors of time and space and greatly multiplied the number of activities which may be done in a given time. The heart beat of a great official far away from home is radioed to London and a specialist advises. Through commerce, industry, and world politics, we have been thrown together until the words of St. Paul are becoming more demonstrable than ever, "God hath made of one blood all nations of men for to dwell on all the face of the earth."

This increased travel has certain advantages. It acquaints an increasing number of persons with the good work of Christian Missions abroad. Wendell Wilkie, returning from his world tour, says, "About everywhere I went I found a small band of trusted faithful missionaries who were the moral backbone of their local communities." An officer stationed in India writes: "In my church at home when they asked for an offering for missions, I reached in my pocket for the smallest coin I could find. Never again. When I return I shall tell them what I have seen here." A nurse in the Congo, so impressed at what she saw, is going to be a missionary after the war.

Yes, ours is a shrinking world, yet an enlarging task. Exactly what do we have to give? Is it relief from physical suffering? Is it freedom from political or economic oppression? Is it deliverance from the shackles of lethargy for those who still walk in dark superstition and fear? It is all of these and more. The attempts to save civilization with a world culture have failed. Though we have come very near to each other, yet we are killing one another. The failure of humanism is clear. Frustration and its disillusionment are torturing the souls of men who had trusted in their own power to lift themselves by their boot straps. Since the world is in such a sorry situation, is it not opportune for the Christian Church to speak now with a new authority on the necessity of a faith—a world faith—a faith in the mission of Jesus Christ who said: "And I, if I be lifted up from the earth, will draw all men unto me"?

Ernest E. Miller

Dr. Latourette of Yale writes in his recent book on *Missions* on the thesis that whenever Christianity seemed to be dying out, then its dynamic power burst forth in a new place. Long before the Atlantic Charter, Jesus in a little church in Nazareth, spoke of himself as having come to preach good tidings to the poor, to proclaim release to the captives and the recovery of the sight to the blind, to set at liberty those that are bruised, and to proclaim the acceptable year of the Lord. The power of the Christian Church has always rested on the fact that it has had a message of relief and redemption.

There is a good deal said these days about the outer and inner war: The outer war of bombers and tanks and barbed wire and submarines and battleships and the inner war of hate and pride and selfishness and bigotry and a pharisaical self-satisfaction that numbs our minds and makes inactive our hands. What the world wants is love and humility, understanding and passionate concern. There is a great temptation to be dilatory in the midst of many uncertainties. We are so apt to say that we are doing our best under the circumstances. We are so prone to be satisfied with what is less than fully Christian.

The Liberal Arts College During and After the War

For some years prior to the outbreak of the present war there was a widespread difference of opinion concerning the relative merits of the small liberal arts college and the large university. Protagonists of the liberal arts college argued that their graduates, though not equipped with a highly specialized skill, were well grounded in the subjects which treat of the nature and meaning of life and that skills could be acquired readily in the years following graduation. In fact, many professions, such as teaching, medicine, and business require a liberal arts background before training in the specific skill is given. The university, on the other hand, argued that the liberal arts college tended to give too much background and that the student could save time by going to school where a very considerable amount of specialized training was available from the start.

The war has tended to give impetus to the point of view of the specialist. Male students of draft age have been permitted to remain in school only for the development of skills considered essential to the winning of the war. A great many liberal arts colleges have been able to remain open only by taking on army and navy men and giving them the highly specialized training outlined by these services. As the war has worn on there has been a tendency for these programs to become still more highly specialized. Obviously this eliminates all possibility of securing training in Bible and other courses which help the student see a meaning in life which goes beyond the immediate task he must perform. During the winter and summer of the 1942-43 school year Goshen College, acting under authority given by Selective Service, offered special courses in relief training, but in these courses particular emphasis was given to helping the student secure a spiritual motivation for the work in which he was interested rather than in mere specialized training in relief skills.

Carl Kreider

During the war Goshen College has been fortunate in having an unusually large enrollment of young women. This has enabled us to maintain many of our divisions of instruction with a normal program of instruction. Goshen College has been thankful for the foresight of Mennonite young women who have seen the importance of college training at a time when lucrative positions are open to people with very limited training.

Although the end of the war is not in sight, Goshen College has felt it necessary to study the needs of its students in the years immediately after the war and to plan to meet these needs. A number of men now in C.P.S. camps and on farms with farm deferments have indicated their intention to return to college as

The Bible School

The Bible School Moves Forward

Ten years of encouraging growth in the Bible School was climaxed in 1943-44, not only with the best year in the history of the school in terms of enrollment and courses, but also with action by the Mennonite Board of Education which promises more progress in the future. The growing need for more and better trained "workmen" in all the activities of the church both at home and abroad, and the deepening conviction that the Bible School at Goshen is the best instrument in the hands of the church to provide these workers, led the Board to place more emphasis on the Bible School by setting aside a separate dean and strengthening the work of the school in other ways.

Recent Growth

This year thirty-seven men and one woman were registered in the Th. B. curriculum of whom twenty-seven were taking full-time work in the advanced full-time Biblical and theological years, nine in the post-graduate year. In addition, the number of B. A. Bible Majors increased, so that a total of approximately fifty young people were engaged in Bible study preparing themselves for distinct service in the church.

Enriched Course of Study

The steady enrichment of the course offering in the Bible School has made an attractive list of courses available which would fill more than four full years of study with Bible courses alone. Advanced students will find the equivalent of a full three-year seminary course. Beginning students will find a full one or two year Bible course with attractive electives. Most of the Bible is covered with a rich series of book study courses, and in addition a large variety of courses in practical work, church history, and theology are offered. To give a clear picture of what the Bible School has for its students, the list of courses offered the first and second semester of 1944-45 is given below.

Harold S. Bender

Extension Sunday School

Inspiring Practical Work

One of the splendid features of the Bible School is the fine opportunity for practical experience in direct Christian work and testimony. Two Extension Sunday Schools are fully operated by students with Sunday morning and evening services as well as week day activities. Over thirty students regularly share in this work every Sunday. Jail services, gospel teams, home visitation and other extension work projects offer abundant opportunity for all. In addition, the men enrolled in the advanced Th. B. curriculum meet regularly for fellowship and discussion of topics of interest for their future work.

Some think that the golden age of the Mennonite Church is in the past and that the future holds only problems, but they are mistaken. The Golden Age of the Mennonite Church is still ahead. Unlimited opportunity and great challenges face the youth of today. To meet the challenge the finest talent and the best preparation is none too good. Christ and the Church need you. Come, join the ranks of the happy, consecrated young people in the rich program of study, fellowship, and practical work offered in the Goshen College Bible School.

soon as their draft status permits. Many of these men will be more mature than the usual college student and some of them will already have acquired skills that may determine their life work. Many will also have gained a new vision of service and will want to pursue training which will help them to further their preparation for that service. Well equipped from the point of view of motivation, many of these men will lack funds to meet the expenses of college training. Goshen College is planning to continue and if possible to enlarge its present policy of granting scholarships and service appointments to worthy students so that lack of funds in itself need constitute no barrier to college training.

Goshen College is also making a careful study of its curriculum to determine possible changes which will better meet postwar needs. The appointment of a special dean of an enlarged Bible School is one tangible result of this study. It is hoped that many Mennonite young people will avail themselves of the opportunity for preparation for a greater service in the work of the church. Study is also being made of other possible curriculum changes which will enable Goshen College better to serve the needs of young people whose interests prompt them to other fields of activity. Those with special interests should make their needs known to the Dean of Goshen College in order that the planning may be conducted to the best advantage.

Carl Kreider, *newly elected Dean of the Liberal Arts College.*

College Training for Nurses

The need for nurses is so great that the National Nursing Council has set up a Committee on Recruitment of Student Nurses. One purpose of this recruitment program is to enlist in the nursing profession women with a college background and training who will be able to occupy positions of leadership in wartime and postwar rehabilitation programs. The Committee urges an acceleration of the curricula of schools of nursing and the possible introduction of pre-nursing programs into colleges and junior colleges in which none exist at present.

Goshen College offers a pre-nursing course leading to a Bachelor of Science in Nursing degree upon the completion of two years of college and of the requirements for the R. N. degree at a school of nursing with which the college affiliates. Goshen also offers the Bachelor of Arts degree which requires three years of college besides the R. N. and gives opportunity for wider training in general education.

To meet growing needs for nurses America will need 359,000 nurses next year—100,000 more than are now available. Of this number 66,000 would go to the military services, 293,000 to civilian practice.

Elementary Teaching Presents a Challenge

These Goshen College Students are prepared to teach in elementary schools next fall.

Three Seniors Speak

"What makes it snow?" "Why do leaves turn red?" "How do trees grow?" "Tell me about God." These and many similar questions challenge me as a prospective elementary teacher to put forth my whole-hearted efforts in meeting the needs and interests of young pupils.

Working with small children presents a wide variety of experiences and hours of enjoyment because children are so curious and full of wonderment. They can see beauty and meaning in the commonplace things of life, and they are generally free to express their innermost feelings in their play, in written and spoken words, and in music.

Then too, the elementary teacher has a great opportunity to mold characters that will make worthy future citizens of our democracy. During the school hours many lessons in co-operation, obedience, sharing, and thrift can be taught. If these lessons are deeply imbedded in the young child's mind, they will be carried over into later life. The Bible says, "Remember now thy Creator in the days of thy youth." The teacher of young children has not only a great privilege but a strong obligation to teach children the ways of the Lord in the days when their minds are eager to learn and their hearts are ready to trust Him.

Helping the backward child or the child who has not learned how to behave are also challenges. How interesting it would be to watch the growth and development of such children, and how encouraging it would be to see the improvement made under the teacher's careful guidance!

So, if you ask me why I'm planning to be an elementary teacher, my answer is this: "I love little children and their ways, and I enjoy working with them." Therefore, if I am tireless in my efforts to do my best, I'm sure I shall not be disappointed in my choice of profession.—DARLENE BIRKEY.

A Chinese poet, three thousand years ago, wrote these words:

"You ask me,
What is the supreme happiness here below?
It is listening to the song of a little girl
As she goes on down the road,
After having asked me the way."

I would capitalize the last two words, "The Way," and would ask, "Have you, too, had that same joy and satisfaction?" Then not only knowledge of the present imperative need for teachers, will persuade you to enter that profession, but your own feeling of wanting to serve Christ in the schoolroom through ministering to His little ones.

You will know with me that there is joy in the service of the children of our country—not only because they will be our nation's future citizens, not only because of the present "song" they receive from being directed in wholesome living, but also because they need to know "The Way" now and for eternity.

Now, as never before, there is need for teachers, well-trained teachers who are inspired to serve. Yes, four years have gone too fast to learn all that might or ought to be mastered before entering the teaching profession. But Goshen College, its faculty and its motto, have inspired me, along with the many

others who have gone out to teach, to feel that all my training and "culture" is "for service."—Areta Graber.

I should be a good teacher! I don't say this proudly, but with humble gratitude, for after four years in the educational department of Goshen College I can say, "My training will will keep me from getting in the rut of 'school-marmishness.'" Why will it? Because I have been shown by the example of my own teachers here that a good teacher is ever willing to grow, and has broad interests; because I have been helped to cultivate the habit of getting much pleasure from the common everyday things of life; and because I have been challenged to serve Christ as I teach children! —Thelma Miller.

Teaching Offers Opportunities for Service

The teacher shortage is causing serious concern to educationally minded citizens and to parents who desire the best instruction for their children which our democracy can afford. The seriousness of the situation is emphasized in the following excerpt from the American Council on Education, Bulletin No. 51:

> One fifth of our nation is in our schools, preparing for citizenship in the new world for which we are fighting. . . . It is essential that these young people should be well prepared. . . . They need to command the necessary skills; they need to understand their responsibilities as citizens in their nation and in the world. These and other needs of our 24,000,000 school children are all the more pressing when fathers are at war, mothers at work, and lives of all are shaken by change and disruption. The children of the nation, as rising rates of juvenile delinquency reveal, today require special understanding and guidance, both for their own sakes and for the sake of the nation's welfare.
>
> Important demands, then are now being made upon our schools and, ultimately upon our teachers. They are more critical, more pressing, than ever before in our history. They challenge young people to choose teaching as their profession and to complete their preparation for this work of vital significance. . . .

Goshen College offers a complete program of elementary and secondary teacher training, leading to the Bachelor of Science in Education or the Bachelor of Arts degree. A two-year elementary curriculum is also offered for the students of those states where the two year course is acceptable for licensing in the elementary school.

"The science of nutrition plays a major role in the program of positive health, and workers in this field are known to contribute substantially to the advancement in well-being of many individuals." Chaney & Ahlborn, "Nutrition," Houghton Mifflin Co., 1943, p. 1.

Home Economics Comes of Age

The field of home economics continues to expand as the health needs of the world become more acute. The science of nutrition alone offers increasing opportunities to young women desiring to contribute to the health of the nation and of the oppressed peoples of the world.

Home Economics has broken the traditional bounds of courses in cooking and sewing and extended its services into a wider range of home and family problems, relief and rehabilitation, public health, commercial food products service, and dietetics.

The need for dieticians in C.P.S. camps and in relief services abroad indicates the increasing need for young women trained in the field of Home Economics. This need may well continue for many years. Herbert Hoover's job of feeding Europe after the last war continued for five years after the close of the war. Rehabilitation activities after the present war may continue for years to come.

The demand for teachers of Home Economics continues to increase as the need for home economists increases. Goshen College offers a special four-year curriculum leading to a high-school teacher's license in Home Economics.

Young women desiring to specialize in other services in this field may secure the Bachelor of Arts degree with a major in Home Economics. A two-year general home economics curriculum leading to the Associate in Arts degree is also available to students who desire a limited training in the field.

Contributions for the heating plant fund continue to arrive at the Alumni Office. The editor regrets that the names of those alumni who have contributed to this fund directly to the Akron office of the Mennonite Board of Education or to I. E. Burkhart 26, field secretary of the College, are not available at present. The list below includes only those who have made their contributions through the Alumni Office.

Since Goshen College has now become a member of the North Central Association the question may arise why we still refer to the Alumni Division of the Goshen College Accreditment Plan. Alumni will recall, however, that one factor in securing membership for Goshen College in the North Central Association was the annual contribution of alumni and friends of Goshen College over a period of years. The NCA was willing to accept this promise of "living endowment" in lieu of income from invested endowment funds.

Regular annual contributions to the College, therefore, are just as much a part of the accreditment plan as ever, and just as necessary in maintaining the high standards of Goshen College and continued membership in the Association.

For this reason every contribution has a double value. It is tangible proof of the confidence of the constituency in the program of the College. Every contribution is a vote of confidence for President Miller's excellent administration. In the second place these contributions, fifty cents and upwards, furnish the necessary funds for maintaining high educational standards and making it possible for Goshen College to render to on-coming generations of students that service which will enable the students in turn to go out and render through the various avenues of the church the Christian culture for Christian service which has been the aim of Goshen College from the beginning.

Naturally it is a reason for deep satisfaction to find so many alumni placing Goshen College on their annual list of benevolences. It is gratifying to note that more and more of them are giving larger and larger amounts, but no alumnus should hesitate to send in his mite, however small, merely because he cannot give twenty-five, fifty, or one hundred or more dollars a year. Every gift is appreciated. The number of givers, not only the amount of the contributions, is important for insuring the on-going program of the College.

On May 1 the grand total of cash and pledges for this year's financial campaign for Goshen and Hesston Colleges was $51,482.74. Of this only $6,716.44 was in pledges and the pledges of the Goshen College constituency have a reputation for being good. This leaves less than $14,000 to be raised between May 1 and July 15, but we must remember that the last $10,000 is always the hardest to raise. The officers of the Alumni Association hope that every alumnus who has not already contributed to the heating plant fund will do so before July 1 so that a full list of alumni donors can be printed in the **News-Letter** at that time.

The president of the Alumni Association is happy to print the following list of contributors who have sent their donations to Goshen College through the Alumni Office. With few exceptions these represent contributions received since the January issue of the **News-Letter** went to press.

COMMENCEMENT 1944

Commencement activities extended from Thursday evening, April 27, to Monday evening, May 1. In spite of gas rationing and other traveling restrictions, a large number of friends and alumni returned to the campus for the week-end festivities. A considerable number of parents of students and graduates were among the visitors. The senior class program, the Sunday afternoon and evening programs, and the Monday evening program were presented in the College gymnasium. Even the gymnasium, however, did not afford sufficient seating space at all the commencement functions.

First Th.B. Class Program

The eight members of the first organized Th.B. class in the five-year curriculum gave a program on Thursday evening, April 27. The names of these graduates are given in another column. The members of the class presented $200 in cash to be given as a scholarship in the Goshen College Bible School to some member of the Mennonite Church in Argentina or India.

Senior Class Gives Chimes

The senior class program on Friday evening, April 28, centered around the class motto, "With the ropes of the past we ring the bells of the future." The class presented an appropriate gift—a set of chimes to be installed as soon as possible after the war. According to tentative plans, hymns and other appropriate numbers will be played at a given time each day and amplified through a loud-speaker system.

Alumni Banquet

The annual Alumni reunion and banquet was held on Saturday evening in the College dining hall. The committee on arrangements was Dean Levi C. Hartzler, Dean Viola M. Good, Miss Mary Royer, and Nelson Springer, efficient manager of the College Snack Shop. Mrs. Bertha Sieber prepared the meal in her usual faultless manner.

Professor Jacob Sudermann 31, class sponsor, presented the class for induction into the Alumni Association, and Beulah Litwiller, of Bragado, Argentina, responded for the class. The class announced the election of Thelma Miller, of Goshen, as the class representative on the Board of Directors of the Alumni Association.

M. C. Lehman 04 was toastmaster. Mayor F. S. Ebersole toasted for the class of 1904 and Ezra Hershberger, recently returned from five years of service in India, for the class of 1934. Dean Bender spoke as Dean of the reorganized Bible School, Dean Carl Kreider spoke of postwar education for men in C.P.S. camps, and President Miller announced recent land purchases by the College and plans for enlarging, remodeling, and modernizing the dining room and kitchen facilities.

Baccalaureate and Other Sunday Services

President Ernest E. Miller, speaking out of a wide experience as minister, missionary, teacher, and administrator, delivered a searching and inspiring baccalaureate sermon to the graduates on Sunday evening, choosing as his subject, "Risking Everything for Your Message." C. L. Graber, of Akron, Pennsylvania, preached the morning sermon, and the A Capella Chorus, assisted by selected members of the Collegiate Chorus, rendered on Sunday afternoon, under the direction of Professor Walter Yoder, Gaul's "Holy City." The soloists were: soprano, Thelma Miller 44, of Goshen; alto, Christine Blosser 46, of Salem, Ohio; tenor, David Byler 45, of Martinsburg, West Virginia; bass, William Wenger 47, of Carlisle, Pennsylvania.

College Luncheon

The traditional college luncheon was held at noon on Monday. Dr. Carl Kreider had charge of the program. Some of the numbers on the program were a message of appreciation by Henry Mukai 47, Japanese American student from California, John S. Garber, of York, Pennsylvania, Fred Swartzendruber, Sr., of Hopedale, Illinois, Mrs. Ernest Miller 17, of Goshen. Ruth Mendenhall played a solo, and the senior girls' quartet and the Byler quartet each sang several numbers. The A Capella Chorus, under the direction of Professor Walter E. Yoder, repeated by special request Gounod's "Gallia."

Commencement Exercises

Dr. John A. MacKay, president of Princeton Theological Seminary, delivered the commencement address on the subject, "Visions of Today That Will Shape Tomorrow." The commencement program listed sixty-three candidates for degrees. President Ernest E. Miller conferred the degrees at the close of the commencement address. The A Capella Chorus rendered several numbers, closing with Jerusalem from Gounod's "Gallia."

THE NEW "Y" OFFICERS

Daniel Miller 46, son of Mr. and Mrs. Orie O. Miller 15 (Elta Wolf 12), was installed as president of the Y.M. on March 25. During the past year he served as chairman of the Membership Committee and was active in the work of the Locust Grove Extension Sunday School, south of Elkhart. He is also a member of the Foreign Missions Fellowship and was a photographer for the **Maple Leaf** staff. Wilbur Miller 47, son of Mr. and Mrs. John Miller (Elizabeth Hostetler 20), of Mantua, Ohio, is secretary, and Paul Lederach 46, of Norristown, Pennsylvania, treasurer.

Mary Oyer 45, daughter of Mrs. Siddie Oyer and the late Dean Noah Oyer, is president of the Y.W. Miss Oyer served last year as the first woman editor of the **Maple Leaf**, and was a member of the Maple Leaf staff during the previous year. She made an excellent record in art and music during her high-school career and has extended her interests in both of these fields during her college course. Secretary and treasurer of the Y.W. are Esther Eash 47, of Johnstown, Pennsylvania, and Catherine Hernley 46, of Scottdale Pennsylvania.

Mary Oyer

CHANGES IN ADMINISTRATION

Dean Harold S. Bender 18, who, since the death of Dean Noah Oyer in February, 1931, has been serving both as Dean of the College and Dean of the Bible School, has been relieved as Dean of the College in order to afford him more time for the promotion of the work of the Bible School, especially in regard to the selection and placement of students.

The Mennonite Board of Education has appointed Dr. Carl Kreider 36, assistant professor of economics, to the position vacated by Dean Bender. Dean Kreider will assume the duties of his new office on August 1. He was married to Evelyn Burkholder 36, daughter of the late Professor Henry L. Burkholder, of Shippensburg State College, in London, England, in 1938. They are the parents of a three-year-old son, Allan Fetter, and live at 1407 South Eighth Street in part of the house purchased and remodeled by Mr. and Mrs. Orie O. Miller 15, (Elta Wolf 12), of Akron, Pennsylvania.

GOSHEN COLLEGE DEGREES

A recent study shows that Goshen College has granted nine different types of degrees (The number following the degree indicates the year in which it first was granted): Bachelor of Arts (1910), Master of Arts (1915), Bachelor of Science in Agriculture (1921), Bachelor of Science in Home Economics (1930), Bachelor of Science in Education (1930), Bachelor of Theology—a four-year degree (1934), Bachelor of Science in Nursing—an R.N. degree plus two years of general education (1943), Associate in Arts—two years of general education (1943), Associate in Arts in Bible—two years of general education with emphasis on Bible (1943), Bachelor of Theology—four years of College work with a major in Bible followed by a year of graduate Bible Study (1944).

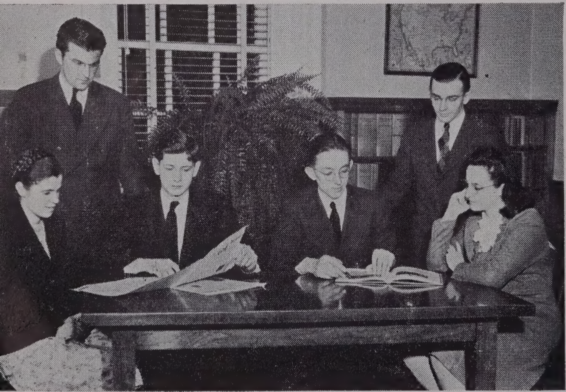
Of these the College granted the Master of Arts and the Bachelor of Science in Agriculture to only one candidate each—to Dr. M. C. Lehman the M.A., and to Dr. Harry Weber the B.S. in Agriculture. The Bachelor of Science in Home Economics also has been discontinued, and the Bachelor of Theology can no longer be earned in four academic years but adds one year of graduate study in Bible beyond the B.A. degree. Hence it is in a true sense a graduate degree.

EDITORS FOR 1944-45

Paul Lederach 46, of Norristown, Pennsylvania, will head the **College Record** staff next year. Gladys Graber 45, daughter of Mr. and Mrs. C. L. Graber, of Goshen, will be associate editor, and Ford Berg, of Dalton, Ohio, business manager. Both Mr. Lederach and Mr. Berg are registered in the Bachelor of Theology curriculum.

The **Maple Leaf** editor will be Harold Bauman 46, son of Mr. and Mrs. Norman Bauman 19 (Ella F. Shoup 16), of Leetonia, Ohio. David Derstine 46, of Telford, Pennsylvania, will be business manager, and Lois Yoder 46, daughter of Rev. and Mrs. Levi Yoder, of Elkhart, associate editor. Both Mr. Bauman and Mr. Derstine are registered in the Th.B. curriculum.

Both editors were intercollegiate debaters during their freshman and sophomore years. Mr. Bauman has just concluded a very successful year in forensics. He was undefeated in intersociety, interclass, and intercollegiate debate during the past season. He, with Ruth Mendenhall 44, won the Avon-Aurora Vesperian-Adelphian debate, defeated Anderson College on the campus in intercollegiate debating, won three out of three debates in the North Manchester tournament, and on the next day won three out of three in the Butler College tournament.



"Record" editors are the group at the left—Gladys Graber, Ford Berg (standing), and Paul Lederach. Group at the right, "Maple Leaf" staff—Harold Bauman, David Derstine (standing), and Lois Yoder.

Mr. Bauman also won the Men's Annual Discussion Contest and the Annual Peace Oratorical Contest. In the State Peace Oratorical Contest he placed second. This is the best record made by a Goshen orator since Charles Ainlay 41 won the national in 1939.

The rate for regular subscriptions to the **College Record** is $1.00 for one year. This includes the two numbers printed during the Summer Session. The **Maple Leaf** sells for $2.50. Alumni would do well to subscribe for both publications, not only to keep informed on College activities, but also to encourage their young friends in the home community to enroll in Goshen College as students.

MISSIONARY TRAINING CONFERENCE

From May 19 to 29 the Mennonite Board of Missions and Charities conducted on the Goshen College campus a Missionary Training Conference for Youth. Bishop Sanford C. Yoder, Secretary of the Board, was director of the Training School. The purpose of the conference was to bring together interested, qualified, and capable young people of the Mennonite Church to make them acquainted with the opportunities for foreign service under the Mennonite Board of Missions and Charities. The Board paid the entire expenses of the students in the Training School, students providing only for their traveling and incidental expenses.

A committee of the Board selected from among the applicants those whose qualifications and Christian experience seemed to meet the requirements of the Mission Board and the mission field.

The Board contemplates sending out within the next few years ten or twelve new missionary couples to replace those who have returned from the service for physical reasons or on account of age. The Board needs a similar number or more to meet the expanding needs of occupied fields as well as to open new work in countries now under consideration. Need calls for pastors, evangelists, teachers, doctors, nurses, and others who can assume administrative and directive responsibility.

Forty-five applicants were accepted. A number of men in C.P.S. camps who applied and were accepted were not able to attend on account of inability to secure release from their duties in mental hospitals and similar service.

The daily schedule began with the rising bell at 6:15 and breakfast at 6:45. Classes began at 7:30 and continued without interruption until 12:30, leaving the afternoons free for study and recreation.

The following courses and instructors were listed in the daily schedule: "Behold the Field," by Bishop S. C. Yoder, assisted by Bishop J. D. Graber 25, and others; "The Practice and Promotion of Missions," by Bishop J. N. Kaufman 17, assisted by others; "Unforgettable Disciples," President Ernest E. Miller 17; "The Bible in Missions," Dean C. K. Lehman, of Harrisonburg, Va., and Edwin I. Weaver 30, now of Hesston, Kansas.

Argentina, China, India, and various phases of foreign mission work were the subjects of evening lectures open to the public, as well as to the students in the conference.

Dr. Samuel M. Zwemer, of New York City, editor of the **Moslem World Quarterly** and Professor Emeritus of Missions and History of Religion at Princeton Theological Seminary, was the vesper speaker on Sunday, May 29.

Edna Good x45, newly arrived missionary in Argentina, wrote under date of January 31: I was fortunate to arrive in Argentina at an opportune time. I arrived in Buenos Aires on January 8, where the Missionary Council was to begin on January 10. I had the privilege of meeting the missionaries and, since this was an English conference, I also had a fine opportunity to gain a general idea of the work as a whole. Then there was a General Church Conference and the Young People's Retreat which followed. Although these sessions were in Spanish, I was able to see the church at work and to become acquainted with some of the native Christians. This was a real inspiration. My first impressions of our work in Argentina are all favorable. According to present plans I shall be studying the language here in Pehuajo, but since this is a poor time to secure language teachers, I have been advised to visit the various stations and while doing so to take every opportunity to converse with the natives. During the past year he was superintendent of the Midway Sunday School, attended night school, and was athletic coach, besides taking care of 1500 laying hens and fifteen head of cattle for his brother David. Hugh King x43, in the C.P.S. Unit in the Hawthornden State Hospital at Macedonia, Ohio, is employed on the State Hospital Farm. Rumor insists that Mr. King will make an important trip to Oregon this summer, and that when he returns to the hospital he will not be alone.

Dr. Samuel J. Bucher, M.D., 39 is located at Grand View Hospital in Sellersville, Pennsylvania.

David H. Stutzman x19, in sending his check for the heating plant from 2354 Kenilworth Avenue, Los Angeles 26, California, writes, "Blessings on all the worthy efforts of Goshen College and happy days to you all."

A letter from T. H. Brenneman 37, written at Villegas, F.C.O., Argentina, on May 6, brings the cheering news that the health of Mrs. Brenneman (Rowena Leedy Brenneman) is greatly improved, and that she is now able to attend one meeting each Sunday, but cannot take part in the services. She should recover entirely by the end of the year.

Marian Gegax x44, daughter of Dr. and Mrs. Charles L. Gegax, of Dunlap, was a member of the class of twenty women graduated by St. Joseph's Hospital School of Nursing at Mishawaka on June 4.

Helen Hoover x43, daughter of County Superintendent and Mrs. Ezra M. Hoover 22, of New Paris, graduated in music from Northwestern University on June 14. She gave her senior voice recital in Lutkin Hall on Monday evening, May 29. She sang in the A Cappella Chorus during this past season and was soloist during the past winter in the Buena Presbyterian Church in Chicago.

A recent note from Helen Oesch 34 requests a change of address from 209 West South Street, Fostoria, Ohio, to Spartansburg, Pennsylvania.

Dr. Silas Hertzler, Director of Teacher Training, left for the University of Minnesota on Monday, June 12, to represent Goshen College in the Workshop being conducted in Minneapolis this summer by the North Central Association. Dr. Carl M. Hostetler 33, College physician, spent June 13 and 14 in Chicago, attending the annual convention of the American Medical Association.

Professors Harold Smith 32 and Wilmer Landis 35, of the Hesston College faculty, have found it necessary to engage in farming for the duration in order to satisfy their local selective service board. Professor and Mrs. Smith (Mildred Risdon 33) and family are living on a farm south of Goshen, near Syracuse. Professor and Mrs. Landis and family have returned to their former home near Perkasie, Pennsylvania.

Dr. Robert L. Bender 32, formerly a practicing physician in Elkhart and more recently an immigration inspector in the department of Public Health Service at Miami, Florida, is now stationed on Staten Island, New York, in the same service. Dr. and Mrs. Bender (Carolyn Lehman 34) spent ten days visiting relatives in Goshen in early June.

Brief Notes from April 1 Issue of The Thirty-Eighter, Official Class Letter of the Class of 1938

Anna Leatherman, teacher at Linville, Virginia, student in Ornithology at Cornell University in the summer of 1943, resumes her graduate study at that institution this summer.

Ruth Ressler, former schoolteacher, now reads proof at the Mennonite Publishing House about twenty-four hours a week with Dorothy Stutzman x46. Spare time, she knits, weaves rag rugs and luncheon sets, and studies seed and fruit tree catalogs.

Mrs. Frank Byler (Anna Hallman) keeps house for Frank, a Th.B. student in the College, takes care of one-year-old Stanley, and carries a course, Home Nursing, at the College.

Mrs. Charles Kreider (Lois Yoder) enjoys living in the country since Charles has been released from C.P.S. to farm for his invalid father.

The editor wishes it would be possible to print in full Corky's two-and-a-half-page single-spaced letter brimming with enthusiasm for his work in C.P.S. at Ypsilanti.

Eva Stouffer, after seven or eight years of declining health and finally a brave battle for life itself, is slowly winning out and hopes to begin life all over again in about a year.

Ira Smucker, father of Russell, aged two, has now been in C.P.S. nearly two years. He is serving as the assistant director of the unit at Norristown, Pennsylvania State Hospital.

Bertha Risser's letter reveals another enthusiastic schoolteacher (fourth grade in a Lebanon, Pennsylvania, community). For evening recreation she is in a class making clay pottery and Pennsylvania Dutch designs.

Mary E. Risser teaches twenty-eight active second graders in the Campbelltown, Pennsylvania, public schools and is on the Sunday-school staff of the Steelton Mennonite Mission.

Clyde Miller has now taught mathematics in Elkhart High School for two years. He is sponsor of the Music Appreciation Club of more than fifty members.

Lloyd Hartzler, mortician at Elkhart, has been deferred by Selective Service until July 7. He is enthusiastic about the proposals that the Mennonite Church will purchase the Elkhart City Hospital.

Ruby P. Martin joined the relief training unit at Ypsilanti State Hospital on February 1 and is studying Spanish, Relief Administration, and Mental Hygiene.

Mr. and Mrs. Emanuel Hertzler are enthusiastic about the Grottoes, Virginia, C.P.S. camp. "Hertz" is camp director and Myrtle, dietitian. She is also the efficient editor of **The Thirty-Eighter.**

THE SPRING TERMS AND THE SUMMER SESSION

Again this summer Goshen College is offering a complete semester of work between the end of the second semester 1943-44, and the beginning of the first semester 1944-45. The spring session, divided into two terms of three weeks each, began on May 2 and ended June 9. The summer session began on June 12 and will continue for nine weeks, closing on August 11.

Enrollment in both the spring and summer sessions has exceeded expectations. Eighty-eight students were enrolled in the first term of the spring session and eighty-three in the second. On June 14, the registration for the summer session had reached the unexpected high mark of on hundred and fifteen.

Fifteen states and three foreign countries are represented in the enrollment of the summer school. Indiana leads with thirty-six students. Ohio is not far behind with twenty-three, and Pennsylvania, twenty-one. Ten students gave an Illinois address; seven, Kansas; three, Iowa; three, West Virginia; two, Oklahoma; two, Ontario; and two, India. Colorado, Virginia, Wisconsin, Nebraska, Minnesota, Missouri, and Argentina each are represented by one student.

The student body includes members of fourteen denominations. Mennonites lead with sixty-four.

Dr. Paul Bender is director of the summer session; Weyburn Groff 44 is proctor of Coffman Hall; Mrs. Emma Rohrer 32, of Smithville, Ohio, matron of Kulp Hall; Miss Mary Royer 30, acting Dean of Women in the absence of Dean Viola M. Good.

A new feature of the summer session is a lecture course of two numbers. On June 22, Dean Howard Higgins, of Emerson College, Boston, delivered his lecture on Fortune Telling and similar so-called "psychic" phenomena. On July 20, Edgar Raine is to deliver an illustrated lecture on Alaska.

ORDAINED DEAN OF BIBLE SCHOOL

On Sunday, June 18, Dr. Harold S. Bender 18, Dean of the Goshen College Bible School, was ordained to the ministry at Goshen College by Bishop D. A. Yoder x07, president of the Mennonite Board of Education. At its annual meeting in February, the Board decided to request permission of the executive committee of the Indiana-Michigan Conference to ordain Dean Bender so as to have an ordained man at the head of the Bible School. Permission was granted during the annual meeting of conference in June.

THE ALUMNI NEWS-LETTER

FINANCIAL PLANS AND OUTLOOK FOR THE COMING YEAR

Beginning with the current fiscal year the Mennonite Board of Education is adopting a different plan for raising funds. During the past few years it has been the policy of the Board to set a certain goal in which was included a fund for current expenses for its two colleges, Goshen and Hesston.

In 1942-1943 the Board set as its goal $105,000, a certain part of which was to go to each of the two colleges for current operating expenses. During that year the Board exceeded its goal by about $15,000. The total amount was sufficient to liquidate the outstanding debt of the two colleges, and it also took care of several additional projects.

During the year 1943-1944, the Board set its goal at $65,000. This was to provide for the current expenses of both schools and a $35,000 heating plant for Goshen College. As we go to press, this goal has been reached. Cash on hand and pledges totaled nearly $67,000 on August 1.

The Board has decided during the coming year to separate the campaign for current expenses from the campaign for funds for additional buildings. As stated in the July College bulletin, which some Alumni may have received, the Board plans to raise a part of the money for current expense by freewill offerings to be taken in the churches in connection with the observance of Christian Education Day. This will release part of the time and energy of the field secretary, Irvin E. Burkhart 26, for necessary promotion work in connection with the future building campaign of the Board.

This new arrangement affects Alumni in two ways. In the first place, those Alumni who attend some Mennonite church on Education Day will have an opportunity to contribute directly to the operating expense fund at the time the contribution is taken in their individual congregation. President Miller and the officers of the Alumni Association express the hope that Alumni will contribute liberally in these freewill offerings. It is imperative that the donations to current expenses be liberal because the Board has decided not to begin the solicitation of funds for the new building program until the $23,000 needed to balance the budgets of Goshen and Hesston Colleges for the fiscal year, 1944-1945, is assured. The Board hopes and confidently expects to raise this amount during September and October.

After November 1, when the amount needed for current operating expense will have been raised all Alumni will be given an opportunity to make contributions toward the building program. The building programs for the two colleges are separate. The Board is conducting a campaign to raise $21,000 for a new dormitory at Hesston College. Concurrently with this campaign, the Board is asking for $21,000 to start a fund for the building of an auditorium-gymnasium at Goshen College.

Alumni visitors at any of the more important Goshen College functions during the past few years do not require a detailed explanation of the need of such a building. Time and again, hundreds of would-be members of Goshen College audiences have been unable to secure a seat in the auditorium. This need is a growing one and is becoming more urgent as time goes on. After the end of the war, when students once more can attend Goshen College unhindered and when traveling restrictions are removed, the need for seating space at College functions will increase, especially in connection with Christian Life Conference, Commencement, and Homecoming.

To recapitulate, then, the officers of the Alumni Association wish to urge two duties upon every member: make your donation to the Christian Education Day freewill offering as large as possible; then be prepared in November to contribute or pledge a liberal amount to the Goshen College building fund.

Goshen College Alumni have responded well to the call for funds during the last two years. In 1942-1943, Alumni contributed through the Alumni Office at Goshen, through the Board's central office at Akron, Pennsylvania, or in response to the appeal of the field secretary, I. E. Burkhart a little over $22,000. Totals for the current year, 1943-1944, are not yet available, but indications are that the amount contributed by Alumni in the present campaign for funds for the heating plant will be very gratifying. This is as it should be. An increasing number of Alumni realize the importance of the small Christian college as a builder of life and as a conserver of eternal values.

COLLEGE APARTMENTS BECOME KULP HALL ANNEX

The unexpectedly large enrollment is taxing housing facilities for women students to the limit. All of the rooms in Kulp Hall were reserved by July 1, and the administration has found it necessary to remodel the College Apartments (the former East Hall) to accommodate twenty-six women students. Even this additional space is not sufficient to accommodate students whose applications are still coming in.

The outside of East Hall will remain the same, but the interior is being remodeled and redecorated. All of the rooms on the second floor will open on a center hallway. Each room is being redecorated, and new single beds are being purchased for each room.

Professor Sudermann and his family are remaining in the apartments in which they now live. He will serve as fireman, and Mrs. Sudermann has been appointed matron for this dormitory to assist Dean Good. A social room is being fitted up on the first floor and equipped with maple furniture. Adjoining the social room is a kitchenette. The spacious basement will serve as a laundry and drying room.

PRE-REGISTRATION FIGURES

Prospects for student enrollment in September are a bit unusual. The registrar's office reports on August 11 that eighty-eight freshmen already are enrolled. This compares with eighty-four freshmen enrolled during the first semester last year. Prospective enrollment for the coming fall term, including both old and new students, is higher than last year. This is a pleasant surprise since a drop in enrollment had been anticipated.

Enrollment in the upper classes, above freshmen, promises to be almost identical with that of the first semester of last year. At present the registrar's office has tentatively listed the enrollment of classes as follows (figures in parentheses are last year's first semester enrollment): postgraduates, 10 (12); seniors, 32 (40); juniors, 48 (30); sophomores, 53 (61).

The prospective enrollment for this fall is larger than the actual enrollment for the second semester of last year. The final count, however, depends upon the number of freshmen who will be admitted on August 26. The distribution between men and women will be approximately the same as last year for the upperclassmen. There may be some reduction in freshmen men.

EDITORIAL CHAT

In order to inform Alumni regarding the new plan to balance the operating budgets of Hesston and Goshen Colleges by freewill offerings on Christian Education Day, President Miller has deemed it advisable to print the October NEWS LETTER in August.

Just one word more about Alumni addresses. All too frequently the complaint comes to this office, "I did not receive the last NEWS LETTER." Investigation usually reveals that the Alumnus has moved without informing the Alumni Office of the change of address. In order that the NEWS LETTER may reach you promptly, we must have your correct and complete mailing address. Second-class mail is not forwarded and runs the risk of landing in somebody's wastepaper basket if not properly addressed.

The officers of the Alumni Association are highly pleased with the response of Alumni to the appeal for funds during the past year. This year has broken all previous records in the amount of money received for the College directly through the Alumni Office. As we go to press on August 12, Alumni contributions received by the Alumni Office total $5349.00. This compares favorably with last year's mark when approximately $5100.00 were contributed to the College through the Alumni Office. It seems probable, therefore, that the total amount of Alumni contributions will exceed the last year's total of approximately twenty-two thousand dollars.

FRESHMAN CALENDAR

Alumni may be interested in the rather elaborate freshman induction program evolved by the personnel staff: President Ernest E. Miller 17, Dean Carl Kreider 36, Dean Levi C. Hartzler 35, and Dean Viola M. Good 39.

Under the new plan, freshmen become acquainted with each other and with the members of the faculty, and are more or less oriented to the campus before the arrival of the upperclassmen. The new plan enables them to begin the year with more self-assurance and a certain esprit de corps.

KITCHEN BEING REMODELED

Extensive renovation and remodeling has been going on in the basement floor of Kulp Hall. The partition between the hall and the kitchenette in the south wing has been torn down to make a men's entrance lounge to the dining hall. The lounge is being redecorated and will be pleasantly and comfortably furnished.

Future plans call for removing the partition between the annex and the dining hall and between the laundry room and dining hall, giving the latter a seating capacity of three hundred. The former west entrance to the kitchen now serves as a dishwashing room. Two windows opening from this room will be used for passing dishes into the dining room.

Cupboard space in the kitchen has been increased on account of the removal of the dishwasher. Necessary repairs are being made on the cupboard, and new hardware is replacing the old. New linoleum covers the counters, and new sinks and lighting fixtures give the kitchen an up-to-date appearance. The Indiana-Michigan Sewing Circles have purchased a steam cooker for the kitchen.

In the storage room is a built-in refrigerator, measuring 11 x 5 x 7 feet inside and containing an ice maker capable of producing forty pounds per day. The storage room will be used for a vegetable room, where all vegetables will be cared for, and a potato peeler installed.

CHANGES IN THE ADMINISTRATION BUILDING

During late July and early August the College cleaning force redecorated the offices of the dean of the Bible School and the secretary of the College. Dean Carl Kreider has moved into the office of the Dean in the southwest corner of the Administration Building, and Dean Harold S. Bender now occupies, as dean of the Bible School, the office on the first floor of the Administration Building, formerly occupied jointly by Dean Kreider and Professor Guy F. Hershberger.

Dorothy Snapp 44 is assistant in the business office and teaches the commerce classes taught last year by Viola M. Zehr 43. Irene Hershberger 47 is a parttime secretary in the business office. Carolyn Weaver 46 is parttime secretary to Dean Kreider.

Richard Yoder 37 is serving) : "One can see that slow progress has been made in getting the camp into working order. We have more tools now, and the workshops are gradually producing more and varied articles. Wood is extremely scarce in this part of the world, and that is a great handicap to us. This week we expect to get the shoe cobblers to work, also the gardeners to produce a few vegetables. By using the water from the bathhouse as irrigation water, and adding some Nile soil which we transport in, we think we can have a few things growing, and we certainly have plenty of farmers who could be willing to do something for us in that line."

GOSHEN COLLEGE ACCREDITMENT PLAN

ANOTHER AIR CASTLE ACHIEVES A FOUNDATION

A New Auditorium-Gymnasium for Goshen College

Another of President Miller's dreams promises to become a material reality. Tentative plans for a new auditorium-gymnasium were approved by the Executive Committee of the Mennonite Board of Education at a meeting held at Goshen, October 20 and 21. These plans call for a building eighty-five by one hundred forty feet. The location is to be immediately south of the library on the south side of High Park Avenue and will conform in general style of architecture to that building. The main entrance will be on Main Street, but there will be separate entrances for men and women at the east end. The length of the building will run east and west along High Park Avenue.

The Need for an Auditorium

In deciding that the next building needed on the campus is an auditorium-gymnasium, the basic philosophy is that an auditorium and a gymnasium are a more urgent necessity than a chapel. The need of a large auditorium to accommodate the overflow audiences at Christian Life Conference, Commencement, Home-Coming, Missionary Conference, lecture course numbers, and the Indiana Literary Convention could not be met by building a chapel of reasonable size. Then, too, a chapel could not be used for any other purpose than an auditorium and for this reason it would be an expensive luxury, for it would be locked most of the time.

Everyone, however—college congregation, students, faculty—is looking forward eagerly to the erection of a chapel or meetinghouse. There are no paper blueprints for a chapel, but such a building is in the thinking and planning of President Miller, Bishop Sanford Yoder, and many others. But right now the pressing need is for a building that will serve two purposes, not one: first, the accommodation of large audiences on special occasions, and, second, provision for the physical education program of the College. And one building can serve both purposes. Both economy and necessity, therefore, demand the early erection of a combined gymnasium-auditorium.

Such a building could accommodate the larger audiences which attend programs at the College. It would enable the College to render a spiritual and cultural service to the constituency which present facilities make impossible. The present Assembly Hall with the balcony and wings can seat less than seven hundred people. At times it has been necessary to turn away scores of people on account of inadequate seating space. And no one knows how many others remained away because they feared that they could not find a seat. Besides the inadequate space, there is the unhappy location of the auditorium on the second and third floors. The need for an auditorium is urgent.

A Gymnasium Necessary

The experience of other educational institutions has shown that the use of such a building, as an auditorium, does not interfere with its use for other necessary educational purposes. Goshen College advocates and practices an intramural physical education program. The Administration believes that it is the duty of the College to build a strong, healthy body for every student, so that he is equipped for healthy living and wholesome outdoor recreation after he leaves college.

To train the college student in a program that will carry such skills and interests over into after life, an adequately equipped gymnasium is a necessity. It is not merely a "playhouse" where idle young men and women have fun wasting time playing games. It furnishes a suitable place and proper equipment to build a strong body, to learn the value of co-operative effort, and to develop certain recreational interests and skills that will prove useful later in maintaining good health and a sound body.

Plans for the Auditorium-Gymnasium

Tentative plans already approved call for a two-story building with basement. The basement is to contain locker rooms, showers, and dressing rooms, handball courts, a shop for woodworking and crafts, a kitchen, and a basement lounge and recreation room with a floor space, 52 x 115 feet. The latter will be suitable for small meetings.

The main auditorium will be on the first floor and will have a seating space 100 feet long and 85 feet wide. This with the balcony will provide ample seating space for the audience on special occasions. This space can be converted, also, into a gymnasium with two practice floors, 45 x 65, or one floor, 50 x 90, for regulation games. The first floor also contains a men's athletic office, women's athletic office, ticket booth, and a classroom 15 x 27. A raised platform, 24 x 45, at one end of the main auditorium is to serve as a stage for A Capella Chorus and similar programs. This space is large enough to accommodate a badminton court and shuffleboard courts. Over the offices and classroom at the west end of the building, there is to be a permanent gallery 85 feet long and 20 feet wide.

No Natatorium at Present

A number of students and alumni may be disappointed that a natatorium has been omitted from the plan. Investigation of the feasibility of building and operating a natatorium, however, seems to indicate that the expense would be prohibitive, since the cost of operating a swimming pool is said to be somewhere near two dollars per hour. If this is correct, a modest estimate of the cost of operation of the natatorium for a year would be approximately $3600 and a considerable amount of endowment would be necessary to insure the continuing operation of the plant even after it were built. The plan for the auditorium-gymnasium does allow, however, for the building of a natatorium at some future date, provided it is found feasible.

The Financial Campaign

The Board has approved a financial campaign to raise money for the erection and equipment of the auditorium-gymnasium. Within the next few weeks alumni will be given an opportunity to make donations for this purpose. Because this building is needed so badly and has been needed so long, it seems reasonable to suppose that this financial campaign will be popular. The alumni circle is sure to respond to this appeal wholeheartedly. Mennonites throughout northern Indiana who have experienced the discomfort and crowded conditions of attending meetings at the College on special occasions have expressed interest in the project. Citizens of Goshen also are looking forward to an adequate auditorium at Goshen College.

The erection of an auditorium-gymnasium, however, will mean that a large amount of money must be raised if the building is to be of good construction and if the equipment is to be adequate. In the erection of a building of this type it would be unfortunate if labor-saving devices, proper seating arrangements, and other up-to-date equipment could not be purchased because of the lack of funds.

The alumni office hopes to be able to send to alumni within the next few weeks more detailed plans and drawings, showing the construction of the proposed building. Meanwhile, the alumni office is prepared to receive donations. During the campaigns for debt liquidation and the new heating plant alumni did well. Their gifts exceeded expectation. But a plan to build a new auditorium-gymnasium should make every alumnus tingle with enthusiasm.

Send Donations to Alumni Office

The Board has decided that each college, Goshen and Hesston, is to have charge of its own building fund. Hence, all funds received at Goshen for the auditorium-gymnasium will be receipted and acknowledged by President Miller. Alumni may send their donations for the building fund to the President of the Alumni Association, Goshen College, Goshen, Indiana, who will then countersign the receipt and hand alumni checks or money orders to the President.

The Board's Program

The Board, also, is sending solicitors into the field. For the next few months C. L. Graber, business manager, and I. E. Burkhart, field secretary, will visit the constituency in the interests of the building program. Tentative plans also call for employing the president and other officers of the Alumni Association in the field for a few weeks this fall and winter.

THE NEW HEATING PLANT

After solicitation for the auditorium-gymnasium is well under way, C. L. Graber is to begin supervision of the construction of the new heating plant. Funds for its construction were collected during the preceding year and are being held in trust. It is hoped that the building can be completed not later than October, 1945. The old plant which was given an extensive overhauling last year has already been causing trouble this fall. Everyone is "keeping his fingers crossed," hoping that the plant will give one more year of satisfactory (?) service.

MENNONITE MUTUAL AID

In October the continuing committee appointed by the Mennonite General Conference for the organization of a new church board to be known as the Mennonite Mutual Aid met at Goshen College with Bishop Allen H. Erb 10, moderator of General Conference, to discuss tentative procedures and plans for organizing the corporation. The committee consists of Orie O. Miller 15, of Akron, Pennsylvania, chairman; C. L. Graber, of Goshen, secretary; and four other members, one of whom is Professor Guy F. Hershberger.

General Conference has approved the plans for Mennonite Mutual Aid as outlined by an earlier committee and presented to the General Conference at its recent session in August. When six district conferences have approved the plan, the committee is authorized to proceed with the organization and incorporation in consultation with the Executive Committee of General Conference. Five district conferences have already approved the plan of organization.

Among the present needs which the Mennonite Mutual Aid Plan will be expected to fill are the following: assisting C.P.S. men who need help in establishing a home and means of livelihood upon discharge from camp; assisting others, especially young married couples who need help in establishing a home and means of livelihood; provision for aid in case of property loss, sickness, or death; a financial and vocational counseling service for Mennonite young people; and a means by which brethren with money can invest it where it can be used to aid other brethren who are in need.

PROFESSOR HERSHBERGER PUBLISHES NEW BOOK

After the copy for this issue of the NEWS-LETTER was ready for the printer, the editor had the privilege of glancing hurriedly through the pages of Professor Guy F. Hershberger's scholarly work, **War, Peace and Nonresistance.** During his sabbatical leave in 1943 Dr. Hershberger spent considerable time in the preparation of the manuscript. Some of the chapters of the book which have appeared in recent issues of **The Mennonite Quarterly Review** have caused widespread comment, and even a bit of controversy. The book frankly attempts an exhaustive treatment of the subject and dodges none of the questions related to it. The treatment is not merely historical, but also sociological, doctrinal, philosophical. In the next issue the NEWS-LETTER will present a brief reiew of the work. It was published by the Herald Press, of Scottdale, Pennsylvania.

GOLDEN ANNIVERSARY CELEBRATION

If the national and international situation warrants, the Administration is contemplating the observance of the fiftieth anniversary of the founding of Goshen College, as the Elkhart Institute, next spring. The Elkhart Institute was founded in 1894-95 and the first building was erected in the latter year, 1895. The faculty under the direction of President Miller has already discussed some tentative plans for the celebration of the anniversary. Alumni will be kept informed as and if these plans develop.

Tentative plans include the publication of a Golden Anniversary Alumni Directory. Considerable work has already been done on this project. It will differ from previous directories in one important respect: it will contain the names of all students who have earned credit at Goshen College, special students, summer school students, winter Bible school students. It is hoped that the occupation and present address of all students can be secured before the material goes to press early next year.

Under consideration, also, is a golden anniversary celebration, featuring various phases of the former, present, and projected activities of the College. This will mean a special alumni program, a program by the Board of Education, another by the College, and emphasis on such other activities as literary, religious, and musical. The crowning feature of the golden anniversary is to be the fund for the building of a new auditorium-gymnasium. This building, long needed and eagerly awaited, has now been authorized by the Board and solicitation for funds is to be pushed as rapidly as possible.

EDITORIAL CHAT

Alumni donations have already begun to arrive at the alumni office for the building of the auditorium-gymnasium. Since the beginning of this year's campaign alumni have paid ninety-one dollars for current operating expense, and have donated seven hundred sixty dollars to the auditorium fund. The names of these contributors will be printed in the January NEWS-LETTER.

Your name will appear in the Golden Anniversary Directory to be printed and ready for distribution by commencement time in 1945. If you have changed your occupation or your marital status, you will wish these items to be recorded correctly in the new directory. Be sure to send the necessary information to the office of the Alumni Association.

A Golden Anniversary Fund is being raised for the building of an auditorium-gymnasium. Every alumnus can have a share in this important celebration by making a donation this year. This is the time when every alumnus will wish to take seriously the slogan of the Alumni Association. "Every Alumnus a Contributor Every Year."

HOME-COMING, 1944

Although travel restrictions of various kinds will prevent many alumni from returning for Home-Coming, and although the program must be curtailed on that account, the Administration has decided to continue the tradition with appropriate exercises. A faculty committee appointed by President Miller together with the "Y" social chairmen, Howard Good, of St. Jacobs, Ontario, and Winifred Erb, of Goshen, began early in October to plan for the event.

EXECUTIVE COMMITTEE OF THE BOARD MEETS AT GOSHEN

The Executive Committee and financial officers of the Mennonite Board of Education held their regular fall meeting at the College on October 20, 21. The following were present: president, Bishop D. A. Yoder x07, of Elkhart; vice-president, J. B. Smith, of Elida, Ohio; secretary, Clayton F. Yake, of Scottdale; treasurer, Bishop Anson Horner x17, of Kokomo; fifth member, Oscar Burkholder, of Breslau, Ontario; financial agent, Orie O. Miller 15, of Akron, Pennsylvania; and endowment custodian, Bishop Edwin J. Yoder x07, of Topeka.

Among other things the committee considered the annual budget, approved general plans for the new auditorium-gymnasium, and completed arrangements for the financial campaign to raise funds for the building. They also employed an architect to draw the plans, giving the contract to Orus Eash and Ralph Bauer, Architects, of Chicago. Orus Eash x38, formerly of Middlebury, was a student at the College in 1934-35 and 1935-36 and secured his degree in architecture at Michigan State in 1939.

On Saturday evening, October 21, the Executive Committee of the Board and the faculty of the College enjoyed a dinner at the Cabin prepared by Mrs. Sieber and served by the students in Miss Wyse's foods class. Professor Paul Mininger presided at the after-dinner program. Professor Walter Yoder led in the singing of several hymns. Professor Mary Royer spoke on "Teacher Training at Goshen College for Christian Education"; Professor Guy F. Hershberger, on "Teaching the Social Sciences from the Christian Viewpoint; and J. B. Smith on "What the Board Expects of the Goshen College Bible School." It was an enjoyable evening, well-spent.

SURGEON GOES TO PUERTO RICO

Dr. H. Clair Amstutz 33, of Goshen, who has been serving his Alma Mater as college physician since 1939, has accepted an appointment under Civilian Public Service to serve as superintendent of the hospital erected by the Mennonite Central Committee in Puerto Rico. Until he was called by Selective Service Dr. Amstutz had been a practicing physician in Goshen and had enjoyed a large and lucrative practice. For the past four months he has served at St. Alexis Hospital in Cleveland where he has spent practically every day in the operating room in the practice of general surgery.

Dr. Amstutz spoke in chapel on Friday, October 6, on the subject, "Religion and Mental Health," and on the following Monday, October 9, he left for Puerto Rico. Mrs. Amstutz, the former Florence Badertscher 35 and their four children, Barbara, eight; Vivian, seven; John, four; and Carolyn, two, will remain in Goshen and will reside at 314 South Fifth Street in the large residence which they purchased last spring. Dr. Amstutz's appointment to Puerto Rico is for one year. During his absence Mrs. Lawrence Burkholder (Harriet Lapp 37) and children, Myrna, three; and Howard, one, will occupy part of the Amstutz residence.

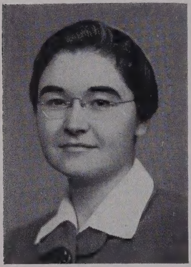
EARNS M.A. DEGREE IN GERMAN LITERATURE

Mrs. H. S. Bender (Elizabeth Horsch 18) was awarded the M. A. degree in July at the end of the first summer term at the University of Minnesota. The title of Mrs. Bender's thesis was "The Mennonites in German Literature." Mrs. Bender did an outstanding piece of work in searching out and evaluating references to Mennonites in the literature of the fatherland. Several chapters from her thesis have appeared in recent issues of **The Mennonite Quarterly Review**, and have received highly favorable comment from German students and scholars in this country.

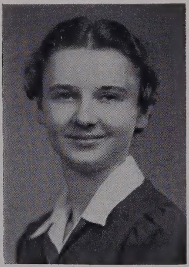
MORE GOSHEN ALUMNI TO TEACH AT HESSTON

The older members of the alumni family will be interested to receive additional evidence that the spirit of "Culture for Service" lives on at Goshen College. In these days of attractive offers and high salaries, four recent Goshen graduates have yielded to President Milo Kauffman's plea for additional teachers.

Ethel Climenhaga 43, of Kindersley, Saskatchewan, a member of the Brethren in Christ Church, answered the call last year and has been teaching commerce at Hesston during the past year. During the past summer she has been doing graduate work at the University of Wisconsin in further preparation for her work at Hesston.



Ethel Climenhaga



Verna Burkholder

This fall four other Goshen Alumnae have joined the Hesston faculty. Verna Burkholder 43, who completed a very successful year as instructor in English and music at the Milford High School, and who could have been receiving two thousand dollars for continuing her work there this year, is teaching English, music, and academy speech, and is directing the choruses at Hesston. She spent the summer at Northwestern University, doing graduate work in English.

Two members of the class of 1944 also are teaching at Hesston: Melva Kauffman, of Hesston, and Lois Litwiller, of Bragado, Argentina. Miss Kauffman is teaching courses in elementary education. She spent the summer at the University of Wisconsin in further preparation for her work and would have preferred to continue her graduate study until she had completed the work for the M.A. degree. Miss Litwiller is instructor in French and Spanish. She has unusual preparation for teaching those subjects on account of her residence in Argentina.

Melva Kauffman

Lois Litwiller

Marian Messner 34, who since her graduation has been teaching in the rural public schools of Lancaster County, Pennsylvania, until last year when she was one of three teachers in a Mennonite parochial school in the eastern part of the county, is another Goshen College alumna who joins the Hesston faculty this year. She is teaching Latin and English.

Lawrence Burkholder 39 and Clayton Beyler 43, who have been under appointment for some time as members of the China Relief Unit, are to give temporary service in India. They received permission late in September to enter India. They sailed from New Orleans by way of Buenos Aires on October 20 and should arrive at Calcutta early in January. Mr. Burkholder was ordained for, and has been serving as pastor of the newly organized Mennonite congregation at Croghan, New York. Mr. Beyler was ordained to the ministry last spring at Protection, Kansas, following the completion of the requirements for the Th.B. degree at Goshen. He visited friends on the campus for several days during the last week in September.

POSTWAR EDUCATION FOR C.P.S. MEN

At a meeting of the presidents and deans of Mennonite Colleges in Chicago on September 22, 23 tentative plans were made for an organization to evaluate the educational work of C.P.S. men in camp and to provide for a program of education following their release from Civilian Public Service. The group decided to begin a study of the educational status of C.P.S. men and of a system for evaluating the educational work that they are doing at present and to provide for further training of these men outside of working hours. Several schools have already been set up not only in the relief training centers but also in other camps.

The farm and community school idea which met with very fine success at Hagerstown, Maryland, last spring, is to be undertaken at other camps also. A new school for farm and community life has been organized in connection with the C.P.S. camp near Lincoln, Nebraska, where the men have an opportunity to take extension courses both in high school and college work under the extension division of the University of Nebraska.

PERSONALS

A letter from Angeline Tyson 39, missionary to Nigeria, written on August 14, and received in Goshen on October 11, states that she has been in Africa since April 27, and that she is enjoying her work very much. She made the trip to Africa on two Portuguese steamers and flew from Leopoldville in the Belgian Congo to Lagos, Nigeria, a one thousand mile trip in a plane. She left the station at Jeba on June 24, and arrived at her present location on June 29, making almost 200 miles of the 300-mile trip on a motorcycle. She is now in northern Nigeria at what is known as Hausa Land. Miss Tyson's address is Zuru via Yelwa, Nigeria, West Africa.

Dorothea Martin, who attended the summer session at Goshen during the past summer, is teaching in the parochial school established at Culp, Arkansas, by the Mission Board of the Missouri-Kansas Conference. The furniture of the school seems in keeping with the primitive type of life for which the Arkansas people are known. Miss Martin writes: "We have school in the church building. . . . We have boards hinged the length of our church seats and fastened to the backs. Mrs. Leona Von Pelchrzim 43 is teaching public speaking and English in the high school at Garrett, Indiana.

Reverend B. Frank Stoltzfus now a Y.M.C.A. secretary in New York, is one of six "Y" field secretaries employed in the organization known as "Prisoners of War Aid." He visited prison camps in Oklahoma and Arkansas in October and November.

Mrs. Galen Miller (Carley June Erb 42) is principal of the elementary school at Chalfont, Pennsylvania, and teaches grades seven and eight. Mr. Miller is a student in Hahnemann Medical College.

Esther Widmer, R.N. 37 is educational director in Grant Hospital, Chicago.

Dr. Reuben Widmer 40 has completed a year in public health service at the United States Marine Hospital, at Norfolk, Virginia. He visited friends on the campus late in October.

Glenn Widmer x42, completed his medical course at the State University of Iowa this summer and is stationed at the United States Marine Hospital in Chicago.

SOLICITATION FOR NEW AUDITORIUM-GYMNASIUM BEGINS

During the first week in November C. L. Graber, business manager, and I. E. Burkhart, field secretary, began solicitation of funds for the new building. They report keen interest in the new project and several local gifts of $1000 either already paid or pledged.

Plans are being made in the Alumni Office for the usual annual program of solicitation of funds for Goshen College. Alumni will be interested to learn that Abram P. Hallman 31 who was born in Canada, the son of Bishop and Mrs. Eli S. Hallman, and who as a boy was a resident of Goshen, has consented to spend several days during November and December visiting alumni in the larger cities in the East. Mr. Hallman is married, his wife being the former Esther Yoder 32, daughter of the late Bishop A. I. Yoder. They have a four-year-old son, James.

For the past eleven years Mr. Hallman has been one of the leading shoe salesmen for the Miller-Hess Company, shoe manufacturers, in Akron, Pennsylvania. His visits to Alumni are made in connection with business trips for his firm. He is carrying a set of colored slides giving new views of the campus and campus personalities. He is carrying his own projector and screen so that he will be able to show the pictures to either large or small groups wherever he meets alumni. He is carrying also a set of plans for the new auditorium-gymnasium and will be able to explain the details of the floor plans and construction.

Mr. Hallman's first visit is scheduled for Boston, on November 9. Later he will visit alumni in Detroit, Cleveland, Akron-Barberton, New York, Philadelphia, Harrisburg, Baltimore, Washington, Pittsburgh, Columbus, Ohio, and possibly a few other points.

Alumni during the past three years have shown an increasing interest in the work and program of their Alma Mater. In 1941, in response to the president's appeal they donated liberally for the purchase of additional books to meet certain N.C.A. requirements. In 1942, they helped to wipe out the "depression operating deficit," and in 1943 they again were very generous in helping to raise funds for the new heating plant. This present financial campaign gives alumni an additional opportunity to show their interest and loyalty.

ALUMNUS TO LECTURE AT HOMECOMING

Dr. Benjamin Gerig 17, assistant Chief in the Division of International Security and Organization of the United States Department of State will deliver the annual Homecoming lecture on Friday evening, November 24, at 8:00 p.m. He has taken part in the Conversations of the Proposed International Organization held at Dumbarton Oaks near Washington during October. The title of his address will be "The Dumbarton Oaks Proposals: Next Steps in International Organization." Dr. Gerig's recent connection with the "Conversations" enables him to speak authoritatively on the latest developments in connection with post-war peace plans. During the conversations he occupied a chair immediately behind that of Stettinius.

FORMAL INAUGURAL OF THE NEW DEANS

Carl Kreider 36 and Harold S. Bender 18 officially received their charge as dean of the liberal arts college and dean of the Bible School, respectively, in a special chapel service Friday, Oct. 20. Members of the Board of Education and other friends convened with the students at 10:45 to witness the inaugural ceremony.

President Miller served as chairman of the meeting, opened by singing the hymn, "Lord of Our Life." Oscar Burkholder, member of the Board from Breslau, Ontario, read and commented briefly on the last seven verses of Acts 2 for the devotional period.

The A Cappella Chorus under the direction of Professor Walter E. Yoder sang "Sanctus" and "The Lord's Prayer" in their first appearance of the year.

Most of the remainder of the service was given over to the inaugural addresses of the new deans, who were introduced by the chairman. After their speeches, D. A. Yoder, president of the Board of Education, addressed a few words to each of the deans, commenting on the duties and privileges of directing the educational program of Goshen College. He then delivered to each dean the charge of office and pledged the support of the Board.

At the close of the meeting, President Milo Kauffman, who arrived during the chapel program, presented a message of greeting to the students and faculty from Hesston College and Bible School and extended best wishes and support to the deans on behalf of his college.

Prayer by D. A. Yoder and the singing of the Gloria closed the service.

Goshen College - Goshen, Indiana

Entered as second class matter, November 17, 1924, at the postoffice at Goshen, Indiana, under act of August 24, 1912. Acceptance for mailing at special rate of postage provided for in Sec. 1103, Act of October 3, 1917, authorized November 17, 1924.

War Time Development of Enrollment

Goshen College enrollment for the current year shows some interesting trends, which have been induced evidently by present war and economic conditions.

The total enrollment shows a very gratifying increase over last year, with 21 more full-time students than a year ago, to make a total of 248. Thirty-two part-time students brings the present grand total to 280. The increase in full-time students is entirely among the women, since the number of men is exactly the same as last year namely 78, while the women number 170. This represents a record low proportion of men, 31%, as compared to 69% women.

More than half of the 78 men are in the Bible School, where 42 men are preparing themselves for Christian service. The 36 men in the Liberal Arts College are half freshmen, many of whom are seventeen years old and will be liable to call by Selective Service on reaching their eighteenth birthday.

Interestingly the increase in women students is more than matched by an increase in resident women. The college was compelled to expand dormitory space to accommodate the 142 resident women, as compared to about 110 a year ago. The increase of 32 in resident women is 11 more than the total increase of women students, meaning that there are 11 fewer non-resident women than last year. The increased demand for dormitory space was met by using East Hall, formerly used for apartments, as a dwelling for junior women, and by purchasing the Mills property directly opposite Kulp Hall on Main Street for housing senior women.

The Mennonite enrollment of 188, with 4 Brethren in Christ and other branches of Mennonites totaling 16, is an increase of 21 in all branches of Mennonites over last year. That is, the total increase of full-time students at Goshen College is entirely made up of students of various Mennonite branches.

The present enrollment trends are also reflected in the occupational choices of freshmen. A table shows comparative figures for intended occupations of freshmen for the past four years. Teaching and religious work attract about the same numbers of students, while nursing shows a decided increase, as do also miscellaneous occupations. As is to be expected with the decrease in men students, medicine, business, and engineering all show definite decreases. The decrease is especially evident in business. It is to be expected that these professions will again attract larger numbers when men can attend college freely.

Of the four states furnishing the largest numbers of students to Goshen College, Pennsylvania shows a significant increase of enrollment over last year, with 39 students as compared to 29 a year ago. Illinois shows a slight decrease from 26 to 23, while Indiana and Ohio both show slight increases.

Comparative enrollments over a period of ten years past are shown in several tables. These include full-time students by class, Mennonite students, and men and women students.
